Dear Parent:

As you prepare for the return to school, please click here to review our updated stationery lists for each grade. Our teachers updated these lists after carefully reevaluating student materials in an effort to eliminate shared classroom supplies.

Even if your child(ren) will be distance learning, we recommend purchasing all of the supplies requested by the teachers because it will help create a sense of normalcy, routine, and connection with in-person classmates as they learn from home.

If you haven’t already, please be sure to fill out this survey by tomorrow, August 17 to let us know which academic program each of your children will be using upon their return in September.

In Mercy,
Ann Marie
